# STILL ANOTHER HOT DAY

Was Ninety Degrees Yesterday, Will Be as Much Today.

BUT THE YUKON IS FROZEN

While North Dakota Was the Hottes Place in the Country There Was Sleigh Ridlog at Dawson City-Washington Will Keep Warm Thirty-six Hours Longer.

Wa hington is going to swelter again to day, just as it did yesterday and the day efore, and the Weather Bureau holds on will not continue tomorrow. According to complain of being so warm.

We were not so warm yesterday as we were the day before, as the very conservative thermometer at the bureau regis tered only 50 degrees vesterday, while the day before it scored as high as 92. The prospects are that today will be a repetition of yesterday, and that some time to orrow the thermometer will take a downward sourt.

The most peculiar feature of the preat hot spell is that this is September and last month, commonly supposed to be the hottest scorcher of the year, was like real autumn weather. This brief experience of colder weather warmed or

but lancied immunity from hot breezes, but the freezes got there just the same. The spell was explained at the Weather Bureau as being due to an area of high ressure. This area extended from New ork to Fouth Carolina, and from the ast to Ohio. In that area, the highest imperature was 50 degrees, experienced ere, and at Norfolk Charlotte and Rich-At Philadelphia, it was only 84 This area of high pressure was not dotted by a single cloud, and there nothing but heated air to ward off the sun's rays. This condition will continue for at least thirty six hours, while it is possible that it may be at least forty

With regard to the query as to why August was so much cooler this year, the officials at the Weather Bureau stated that Washington should take its good luck as it comes, and not ask fool questions

The hotiest place in the country yester day was Bismarck, N. D., where the scon-tubes showed 104 degrees. The day be fore it was 102. Palestine, Texas, also with 92; Little Rock had 94, Parkersburg W. Va., and Green Bay, Wis., footed up the respectable figures of 94 each. Chisenerally the hostest place this side of a certain well known post mortem resort, had only 92.

To offset these upward inclination of the mercury, it is refreshing to know that Francisco slumbered peacefully last night with a temperature of only 50. The reading of such figures makes on ctally. At Quebec it was 58. The ofreturns from Dawson City and Forty Mile have not yet been received at be office of the Weather Bureau, but it learned from reliable sources that it

as about 10 degrees above zero. The Yokon River commenced to freeze enterday, and the three inches thick is already reported. Good skating is in rospect. Sieigning parties are quite fre-quent. The ground is already frozen to depth of three feet. A number of Klonthere who were going up the Yukon it in open bont were caught in the ice fices and had to walk ashore. The pros-pects are that there will be about three feet of snow at Dawson City today. Under such circumstances the people of Washngton should not feel weary at the propect of working in a temperature of only So degrees. They should feel glad that it is not 10 degrees above or below zero.

Lively Time That Resulted From a Quarrel.

Policemen With Difficulty Capture the Rioters, Who Had Seriously Injured Two Men.

Several negto laborets engaged in laying a brick pavement on Nassau street, be tween First and North Capitol, O and P streets northwest, created a small size riot yesterday afternoon, in which two o their number, Washington West and a unknown colored man, were carried away

A quarrel arose among the workmen over a trivial affedr and soon the air was filled with flying bricks, clubs, and other misthe patrol wagon responded with Sergt.

Dunnigan and Policemen Copeland, Modd and Yeatton, who soon discrete the control of the patrol wagons are policemented friend.

The National Anti-Merit System Republicans Increasing.

FROM GROSVENOR ADVICE

The Ohio Statesman Writes a Char acteristic Letter-Eighteen New Members Elected-The Formation of Clubs to Be Presecuted in Maryland.

The Republicans who are urging the abolition of the civil service merit system met last night at Emrich's Hotel. Hon-A. M. Clapp presided; Mr. W. D. Lester, ecretary. There were about 100 present. ncluding 13 members elected last night. Several interesting communications were

read. One was from a Eoston paper usking for data; some were from West Virginia, Indian Territory, Virginia, Onio, and South Dakota. All of these write that it is desired to form clubs and associations to be affiliated with the Washington of ganization, which is the national body. A characteristic letter was received from

Gen. Grosvenor, who is in line with the spoils system. Mr. Grosvenor among other things said that he "specially wished t emphasize the importance of work in the Congressional districts. Open the hafterie in the districts represented by the infat. nated followers of this humbur, especially se in charge of civil service in the Hou of Eepresentatives.'

Mr. W. D. Lester, C. P. Scott and George C. Raudall were appointed a committee to go to Baltimore September 15 on the occasion of the assembling of the Maryland Republican convention to bring be fore that body the question of forming in Maryland leagues like that of this District All leagues, it is understood, will be sub

rdinate to the local association. In appointing the foregoing committee Mr. Chapp said that he did not select the s geographically, as the whole cou try felt very much as this league did The association authorized the prepara-tion of a circular which will be addressed to the public. This matter was referred to be executive committee. The address will be reported at the meeting next Wed resday.

One of the letters which was not read was from a Mr. P. I. Monaghan, of Kansa City, Mo., who says he is a free silver Democrat, and is in favor of wiping on the civil service reform "monstrosity.
